

NASA Workforce Development in Montana

JPL Student Summer Internships

- Shannon O'Brien, Carroll College Sequence Adaptation Process
- Kelly Beffert, Carroll College Mission Systems Engineering
- Calvin Coopmans, MSU-Bozeman MMARC Project
- Cody Pinion, MSU-Bozeman MMARC Project

BOREALIS Payload Development Program

- 7 affiliate campuses (2 tribal colleges) developed science payloads for MSU's BOREALIS high altitude balloon system.
- 3 experiments have flown, 4 scheduled to fly fall 03.
- 3+ students recruited and retained at each participating campus, including female, Native American, and African American students.
- 5 faculty sent to UC-Boulder workshop "Sending Student Hardware to Space II". As a result, a Balloon-Sat engineering course has been proposed at Montana Tech in Butte.
