South Dakota Teachers—Don’t Miss This Unique Opportunity to Bring Cutting Edge Science into your Classroom!

July 16-17 @ The SD Discovery Center in Pierre
K-12 grade teachers, 8am to 5pm each day

Space is fascinating and motivating for students. NASA Aerospace Education Specialist, Angelo Cassaburri, will demonstrate how to add cutting edge science to the curriculum you already teach. All participants will receive copies of all materials covered during the workshop. The workshop is designed for K-12 teachers. Regardless of your grade level, you'll get something useful from each activity.

During the workshop, you will participate in a live learning event via the NASA Digital Learning Network. Experience this interactive learning opportunity and learn about more than 60 additional opportunities available to your students.

The workshop topics include:

- Robotics
- Rockets
- Aeronautics
- Engineering Design Challenges
- Plants in Space
- Space Food & Nutrition
- Rocks from Space
- DLN Live Event
- Rocket Launching

Class size is limited. Register today!
Graduate (extra fee) and Certificate Renewal Credit Available.
To register mail $50, your name, address and phone number to:
